DETAILED ACTION

1. Receipt of the applicant's amendment filed 1/14/10 is acknowledged.

Response to Arguments

2. Applicant's arguments filed 1/14/2010 have been fully considered but they are not persuasive. the applicant has amended the claims to include

"...**automatically generating** loan documents for said loan products for signature by a borrower when said one or more underwriting criteria are fulfilled;
and

accepting one or more of an electronic certificate of the borrower and a biometric signature of the borrower as a signature on the automatically generated loan documents."

It is not clear what the claims means by **automatically generating** loan documents. In particular, it is not clear what are the steps that provide this function. Does the processor perform the generation of documents step or are the loan documents provided with the loan products? Are teh documents customized based upon the fulfillment process?

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

the claimed invention is directed to non-statutory subject matter. Claim 36 is non-function descriptive material (see MPEP 2106.01).

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 and 36-47 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: steps of generating or automatically generating loan documents is not addressed in the claims. what the claims means by **automatically generating** loan documents. In particular, it is not clear what are the steps that provide this function.

5. Claims 1-6 and 36-47 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: does the processor thorough the lookup database to display the documents to the user? Are they customized based upon the contract.

Allowable Subject Matter

6. Claims 1-6 and 36-47 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
